13.15	Status project-teams	Isabel (WN)
13.50	End-result CertifHy 1.0 (Green H2) project +possible next steps	Denis (HYGS)
14.10	Running PtG-projects in which Hydrogenics is involved	Jan (HYGS)
14.30	Other activities: possible sites to visit in Germany/Denmark	Isabel (WN)
	Practical items (Website, banners, next meetings...)	
	Timeline	
14.45	Varia -Questions-discussions	All

15.00-16.00 Introduction and visit to Hybalance equipment @ Hydrogenics

Presentations:

Power to gas
general meeting No

Remarks during the meeting:

Regarding status project teams:

- For ships on H2: check also using option of Generator on H2 in combination with electromotor (i.s.o. combustion engine).
- Renewable Energy Directive- revision Nov 30, 2016: role of cluster to influence government regarding implementation of this RED in Belgium.
- Green certification of H2: try to install pilot certification system in Flanders (cfr certification of Biogas in Wallonia); don't wait for CertifHy implementation.
